Continued Examination Under 37 CFR 1.114

Applicant's filing of Request for Continued Examination on January 11, 2007, is acknowledged.

Claim Rejections - 35 USC § 112

1. Claims 1, 8-10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The phrase "average aperture ratio" is not clearly described in the specification as stated by the applicant.
2. Claims 1, 8-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The newly added phrase "average aperture ratio" is vague and indefinite, as it is unclear whether it is referring to the number of apertures between the first major surface and the second major surface, *or* the size of the apertures between the first major surface and the second major surface? Clarification is required.

Allowable Subject Matter

3. The pending claims would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 1st and 2nd paragraph, set forth in this Office action.

Art Unit: 1775

4. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
